- **PUBLIC INPUT**-Degner brought up payroll and how it really needs to be done monthly from the 1<sup>st</sup> of the month to the last day of the previous month. It also should be submitted to Amber a week prior to the meeting to ensure the check gets printed for the monthly meeting. Its easier to keep track of project costs this way. Discussion also took place of a new timesheet to separate projects in appropriate categories. Amber will check into this and report back next month.
- **LITTLE LONG LAKE ROAD BOAT LANDING/ACCESS ROADS IMPROVEMENTS TO BOAT LANDING**-Project complete.
- **CRACKSEALING**-Nothing has been done yet.
- **DRIVEWAY PERMITS/APPLICATIONS**-None.

- **ROADS**-Degner was contacted by a fiber company that they would be doing work on a short section of Hilltop Road. Degner said they were contacting him to let him know and that he told them to be careful on our roads. Bill reported that he talked to Dan about the boom mowing and he will be done in a couple days. Pine Tree is done, just needs some rock by the culvert. They used 4-5 rolls of excelsior. Bill reported the project stayed within budget. The bids were \$30,000 but didn't include gravel so after that it would have been about \$40,000. He expects it to cost us under \$25,000. Bill reported there were culverts done on 4 driveways. Bill said they are still planning to get some limbing done yet this fall. Bill got a call about a sign down on the big corner on Tozer Lake Road. The caller said the sign and post were hit and laying in the ditch but when Bill got there a short time later, they were gone. He is waiting for a new right turn no stop and then he will replace the stop sign. There is a culvert on Hilltop that needs to be cleaned out before winter sets in. The board discussed the need for flags for driveways that will be plowed this winter. They agreed to keep it the way it has been and get the flags. Lesa will get some bright colored material to use.
- **TRUCK/GRADER**-Bill reported the A/C in the truck is fixed. He took it to Jocks and they recharged it. Bill reported they tried to fix the wiring harness on the rear axel but it didn't work so they got the part number and the part costs \$37. Degner hasn't heard anything on the new truck.
- **TOWN CONSTABLE/DOG CATCHER**-Degner reported no one has volunteered to do this so we will just have to leave things the way they are.
- **SPOONER & SHELL LAKE FIRE ASSOCIATION REPORT**-Degner reports that Spooner Fire Dept took a 2-3% increase and Shell Lake is up 8% which results in a \$3,000 increase. Spooner increased wages for fire fighters. Degner reports that the emergency services fees come directly out of our budget making it hard to get roads done.
